IN 36th YEAR — EVERY WEEK SINCE 1905 | HAMLIN, JONES COUNTY, TEXAS | FRIDAY, JUNE 27, 1941 | NUMBER 35

Last Call Made For All Cowboys to Meet Stamford Reunion

Stamford, Texas, June 25— Those almost mythical days of the open range, of boots and spurs and six guns and large herds of cattle on the trail, will be relived here on July 3, 4 and 5, during the twelfth annual Texas Cowboy Reunion, when veteran cowhands of the Southwest will gather for their annual meeting.

Each year, old-time cow-punchers, some 800 of them, assemble here during the Reunion, elect new officers for their association, renew acquaintances, swap yarns and recall stirring events which occurred when the West was young. Membership is limited to men who were actively employed as cowboys on the ranches at least 35 years ago, and the roster now includes more than 1,800. Members who have paid their annual dues are issued badges which entitle them to a chuck wagon dinner at noon each day of the Reunion, and free admission to each performance of the rodeo.

HAMLIN FOLKS—COWHANDS

Membership in the association includes the following from Hamlin:

W. M. Estes, I. L. Drake, H. T. Medford, Mrs. A. D. McLaughlin, J. A. Young, O. S. Hunter, L. E. Stone, W. A. Archer, D. W. Stephens, Pat Collins, W. L. Walton, T. R. Stovall, R. L. Harris, Dave Harris, J. A. Edwards, J. W. (Will) Fomby.

Officers of the association include J. Ellison Carroll, Big Lake, president; E. M. Cowden, Midland, and Kid Jeffers, Brady, vice-presidents; Chas. E. Coombes, Stamford, secretary-treasurer.

IN THE BUNK HOUSE

The old-timers hold meetings in their own home, the Will Rogers Memorial Bunkhouse,on the grounds of the Texas Cowboy Reunion. The building, constructed of natural stone, is very picturesque and has brands of many of the most famous Texas ranches hewn into the walls. They also have another building, the Coombes Roundup, where square dances are held each night during the Roundup.

OLD FIDDLERS CONTEST

The annual old fiddlers contest, held in connection with the Cowboy Reunion, will be staged in the Round up on the morning of July 4th. More than 25 contestants usually take part and compete for the $32.50 in cash prizes, as follows: First, $15; second, $10; third, $5; and fourth, $2.50. The contest is free to the public, and always attracts a large crowd.

Other interesting attractions at the Reunion this year, besides the three rodeo performances each day, will be the quarter horse show, the chuck wagons, two dances each night, and performances by the famous Stamford Square Dance Team in the arena at each night performance.

All 21 Year Old Men To Register Tuesday

Every man in the State of Texas, who has attained the 21st anniversary of the day of his birth subsequent to October 16, 1940, and before midnight, July 1, 1941— with a few specific exceptions made by Congress—must register with his local Selective Service board on July 1st.

Aliens, as well as American citizens, who are 21 years old on July 1 must be registered, General Page State Director, emphasized. He pointed out that aliens between the ages of 21 and 36 years, who have come to the United States since the first registration on October 16, 1940, and have not been registered, must appear before local boards on July 1 to register.

Quoting from Selective Service regulations, General Page said that the exemptions from registration as provided by the Selective Training and Service Act and the Coast Guard Auxiliary and Reserve Act are:

"Commissioned officers, warrant officers, pay clerks, and enlisted men of the Regular Army, the Navy, the Marine Corps, the Coast Guard, the Coast and Geodetic Survey, the Public Health Service, the federally recognized active National Guard, the Officers' Reserve Corps, the Regular Army Reserve, the enlisted Reserve Corps, the Naval Reserve, and the Marine Corps Reserve; cadets, United States Military Academy; midshipmen, United States Naval Academy; cadets, United States Coast Guard Academy; men who have been accepted for admittance (commencing with the academic year next succeeding such acceptance) to the United States Military Academy as cadets, to the United States Naval Academy as midshipmen, or to the United States Coast Cuard Academy as cadets, but only during the continuance of such acceptance; cadets of the advanced course, senior division, Reserve Officers' Training Corps or Naval Reserve Officers' Training Corps; members of the Coast Guard Reserve, other than temporary members; and diplomatic representatives, technical attaches of foreign embassies and legations, consuls general, consuls, vice consuls, and consular agents of foreign countries, residing in the United States, who are not citizens of the United States, and who have not declared their intention to become citizens of the United States."

Special registrars will be provided to register men who cannot appear before the local board because of illness or other incapacity.

Every man subject to registration who is an inmate of an asylum, jail penitentiary, reformatory, or similar institution on July 1 is required to register on the day he leaves the institution.

General Page indicated that there would be approximately 65,000 men registered in Texas on July 1. Registration will be conducted between the hours of 7:00 A. M. and 9:00 P. M., he said.

J. H. Warren, chairman of the Jones County local Board, has announced that registration of Jones County boys who have become 21 years of age since the last registration date would take place at the office of the local board in Anson, July 1, during the hours specified by the state director.

Arrangements are being made for additional assistance for the registration in Anson, the local board announced.

BAPTIST CHURCH

You are cordially invited to the following services:

SUNDAY—

9:45—Sunday School. Let's stay above the 300 mark.

11:00—Morning worship. Be in your place in this service.

MONDAY—

9:00—Our G. A. and R. A. organizations meet. Send the boys and girls.

4:00—W. M. S.

WEDNESDAY—

8:00—Prayer meting.

9:00—Choir rehearsal.

We are not having our evening service Sunday. Our Lueders encampment is in progress, and we want a large number to go in the afternoon for the annual Hardin-Simmons service, then stay over for the night service.

H. E. EAST, Pastor

CHURCH OF CHRIST

(John B. White)

The season for our missing services of the church because of the cold is past; likewise we are apt to have little more opportunity to blame our absence on too much rain. Let's now not let it get too hot or dry or dusty to do the will of the Lord. We all need the strength thus secured. The church needs the enthusiastic support of all. Of course the work of the Lord will continue regardless of the weakness of any one of us who may fail to answer the call to service, but woe to that person that purposefully fail the Lord. Let us work that we may expect that welcome from our Master, "Well done, thou good and faithful servant." Will you not be found at your place of duty at all times?

William T. Brown, private in the 23rd Inft. anti-tank Co. at San Antonio, came up last week to visit his parents, Mr. and Mrs. John W. Brown, near the Grammar School. William is a gunner, and the size is a 37 m m—that bores holes through tanks a mile away. 15—9lb shots per minute does the job.

USO District Leaders First To Fill Ranks

T. N. Whitehurst, Beaumont, top, and James H. Allison, Wichita Falls, bottom, rank top honors for being the first congressional chairmen in Texas in the campaign to raise funds for the United Service Organizations to complete organization of their districts. Whitehurst reported his job done first with Allison following as a close second, according to E. B. Germany, Dallas, Southwestern regional chairman. Kenedy County was the first in the United States to raise and oversubscribe its quota. Baylor County came in second, with a county from Oregon reporting third. The USO campaign is being carried into every county in the United States in a hope that all citizens will make contribution to the end that wholesome recreation and entertainment will be provided for the soldiers and sailors when on leave from camp.

Terrell Store Installs New Refrigeration

J. B. Terrell has added a very beautiful refrigeration unit in his Market Department. This provides extra space for large meats and an attractive dairy products cabinet. Besides being a thing of utility and convenience, the unit adds to the general appearance of the store.

Mr. and Mrs. Walter S. Bernstein of Dallas were up last Friday and Saturday to visit Mr. and Mrs. Kurt Schoemann and Mrs. Frieda Schoemann, and of course the big fine boy Ralph Samuel Schoemann.

WATCH FOR THE STAMP OF EXPIRATION DATE ON YOUR HERALD LET US KNOW

METHODIST CHURCH

JAMES E. HARRELL, Pastor

Sunday School, 9:45 A.. M.

Morning Worship, 10:50.

The Intermediates meet at 7:30 P. M.

Senior Young People meet at 7:30 P. M.

Evening service, 8:15.

Woman's Society of Christian Service, Monday afternoon at 4:00 o'clock.

Mid-week service, Wednesday nite at 8 o'clock.

Choir practice, Wednesday night at 8:45.

The Pastor's sermon subject Sunday morning is to be: "A Peculiar People." His Sunday night subject is to be: "The God Behind The World."

Go to church on Sunday and the burdens of the week will be lighter. Get the Church-going habit before the world-going habit gets you!

We always welcome visitors. Come worship with us!

Calvary Missionary BAPTIST CHURCH

(South Central Avenue)

There will be no service at the Calvary Baptist Church Saturday night or Sunday night. We are dismissing these two services to give our members the opportunity to attend the Fifth Sunday meeting services to be held in Anson.

We will have our Sunday School, Sunday morning at 9:45 and preaching at the eleven o'clock hour.

Geo. A. NICHOLSON, Pastor

Miss Phyllis Milsap is at home for a three weeks' vacation from her student nurse training in the Lubbock Sanitarium, with her parents, Mr. and Mrs. Hibbs Milsap.

Carl Greenway who has been in Marlin for several weeks taking medical treatment, is reported to be improving nicely.

Among the many new families to locate in Hamlin the past few weeks is that of Mr. and Mrs. Clifford Alexander and four children, Anna Belle, Charles, Doyle, and C. W. Mr. Alexander is employed by the Shell Pipe Line Co. They are from Wichita Falls and they have their residence in South Hamlin.

Mrs. Kurt Schoemann and son, Ralph Samuel, were brought from the Abilene Hospital Sunday, to their home on the corner of Alamo Ave. and 2nd St.

Ex-Residents of Bell County To Picnic

The second annual picnic of the ex-Bell County Residents who now reside in West Texas will be held at the Presbyterian camp grounds at Buffalo Gap on Sunday, July the 6th.

This Association was organized in 1940 and has for its purpose the coming together once a year of all that were former residents of Bell County. There are no dues for membership and the only requirements are that you formerly lived in Bell County and now live in West Texas.

At the first meeting of this Association there was over Seven Hundred Ex-Bell County residents present, and it is expected that in the meeting on July the 6th, there will be present at least three or four thousand. The meeting will convene at 10 o'clock A. M., with a basket picnic lunch spread at noon and the day's program will be entirely informal, associating with former friends and acquaintances. It will be worth your while to come and spend the day and meet old friends and neighbors that you have not seen for 30 or 40 years. Regardless of what portion of West Texas you live in, you are requested to bring your basket lunch and be present and become a member of this Association.

No. 35—36

Wonderful Fruit Now South Of Hamlin

Fruit like all other crops, depends on plenty of rain, therefore, every tree, vine and bush in the great deep sandy belt across Jones County is bearing fruit.

The Herald has been and is this week carrying the advertising for the many orchardists.

Almost any farm south of Highway No. 15 and many north of that "middle-bustin" road, is capable of great fruit orchards. This strip of shinnery land runs almost unbroken a short distance north of the Clear Fork of the Brazos. This is especially true except where the river turns north. The strip passes into Shackelford County just east of Lueders, giving that county a fruit belt.

Among those south of Hamlin who have lots of fruit are Colwell, Crow, Bristow, Haught, Cornelius, and Sewell.

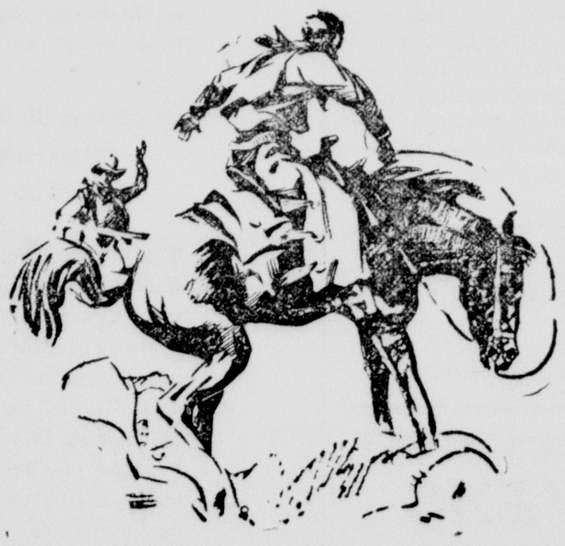

Remember

Do not forget the date and place, on July the 6th at Buffalo Gap, Texas, the Ex-Bell County Residents will hold their Annual Picnic, beginning at 10 A. M. If you are a former resident of Bell County, you and your family are eligible to become members of this association. Bring your basket lunch and spend the day with your former friends and neighbors.

DANCERS TO PERFORM AT TEXAS COWBOY REUNION

One of the new featurse of the twelfth annual Texas Cowboy Reunion at Stamford on July 3, 4 and 5, will be the performance of the famous Stamford Square Dance Team. The group, only recently returned from Washington where they participated in the National Folk Festival, will give a demonstration of square and folk dancing technique on a large platform in the center of the rodeo arena at each night performance. Special lighting features have been planned for this part of the program. Men composing the team, from left to right, are C. B. Gray, Lawrence Crider, John Braswell and Joe Benton. Ladies, from left to right, are Mrs. Lawrence Crider, Mrs. C. B. Gray and Mrs. Joe Benton. Miss Lou Williams, Mr. Braswell's partner, is standing behind Mrs. Gray and cannot be seen in the picture.

This

AND A LITTLE BIT OF

THAT

—o—

View England—

This is a good time to sum up Britain's position after a year and a half of war, inasmuch as our government obviously considers the survival of England necessary to the safety and defense of this- hemisphere. To begin with, it is clear that the Germans have been immensely superior on land—England is nowhere near the Nazis' equal in equipment, and it looks as if the British High Command lacks those qualities of thoroughness, imagination and cold daring which characterize Hitler's general staff. Every battle fought on land has ended in victory for Germany and rout for the British. Even the British successes against Mussolini's spiritless troops in Africa were afterwards completely offset when the German legions moved in.

On the other hand, British sea control, despite heavy losses, remains unquestioned. The Italian navy, with many of its principal vessels sunk, is largely bottled up in port, and it seems to have little taste for battle. The German navy has often shown courage but, at least so far as surface vessels are concerned, it is comparatively smaller now, by comparison with the British fleet, than when the war began. And English reports say German submarine losses have lately been very great.

Equally important, Britain seems to have achieved a minor miracle in rearming and fortifying her island after the terrible disaster in Flanders, which ended with the extraordinary evacuation at Dunkirk. The great bulk of British equipment was left on the French beaches. American reporters tell of British regiments marching through the streets of London without even rifles. Today Britain is literally an armed camp, with the finest of defensive equipment—including, according to some, new devices which will give the Germans an unpleasant surprise if they try invasion.

Most important of all, perhaps, Britain has apparently gained control of the air at home. Reliable reports say the RAF has done wonders in destroying attacking planes of the Luftwaffe. She is receiving considerable numbers of long-range multi-engined bombers from this country which are enabling her to increase her raids over German and German-dominated areas.

Worst phase, from the British viewpoint, remains the shipping problem. It was recently necessary to impose new and very severe food restrictions in England — — today British diet is definitely inferior to Germany's. War materials get first place in the ships, and only a subsistence minimum of other materials are brought in. It remains to be seen what effect this may have on British morale.

Mr. Churchill also said recently that if England is no worse off in six months than she is now, she will have reason for self-congratulation. In other words, he apparently feels that the time of great crisis is at hand. The period of fine weather is here, and the unpredictable Hitler may have some world-shaking plans in mind for the summer months — and the plans are upon Russia.

—T & T—

A Young Supreme Court

Time has given Mr. Roosevelt what Congress refused to give him when he proposed his Supreme Court enlargement measure—the right to staff the Court with Justices whose social end economic ideals parellel his.

He has now appointed seven Justices, a record equalled only by Washington, who of course appointed the entire first Court, but it only numbered five Justices then. Mr. Justice Stone, a Coolidge appointee who has been elevated to Chief Justiceship, has voted favorably on most New Deal legislation. Mr. Justice Roberts, a Hoover appointee, has a middle of the road record—he has voted for some New Deal laws, against others.

This Court will exert a great influence on the country for generations to come. Most of the members are young men. A long and important list of new precedents may be expected.

—T & T—

Last Call—

This week the streets, parks, auditoriums, and radios have rung with political speeches. Speeches to arouse voters to vote one way or another.

One of the main things for every citizen, and especially a newspaper man, is to be liberal, but be frank, free and feel easy on questions dealing with the welfare of his country.

We have listened carefully to many radio talks, and to us the absence of expressions of real statesmanship were noticeable. Ranting and blaring are not statesmanship. Entertainment and glamor will get no one anywhere with those who think things straight through.

To draw a conclusion and base it upon sound reason, is the main thing. Wishful thinking, and befogging the issues will solve nothing.

To our mind, it is—which of the "willing candidates" will serve in the United States Senate with the greatest credit to Texas and our nation. Which would you be proudest of at this time? It all depends on what you want, as to what one votes for. One can get some idea of how each of the leading candidates will sound in the great senate, by listening to their "home-town talks."

Just what do we Texans want in a new seator? Surely not that he be just a good democrat. He ought to know the ropes in Washington as regards what position this United States occupies in the world's picture. But no one should expect a "Connally" at first, but the new senator should be one who would take quick spotlight as a safe, well-grounded statesman.

Answer the question in your own mind: Should Texas give up O'Daniel; should the entire state relinquish the services of Mr. Mann, who like the governor, asked for and was given a state-wide job that now lasts one year and half longer; can the nation give up, without loss, the chairman of the committee to investigate Un-Americanism, Mr. Dies? These are good questions, highly complimentary to those mentioned.

—o—

Teacher—It gives me great pleasure to mark you 85 on your examination.

Jimmy—Why not make it 100 and give yourself a real thrill.

Russia! Russia?

—Both Russia and Germany lied.

—Last week both Russia and Germany said, No war, just summer maneuvers for their great armies.

—Germany lied to Russia and Russia accepted it.

—A pact or treaty of agreement has again proved a mere "scrap of paper." Of all countries in the world, Russia is the last one that Germany had any excuse to attack.

—Avowed friendship at sundown and marching orders at dawn, just the same old story, and yet there are some even in America, the enlightened would still believe Germany.

—Russia held out "one finger" of appeasement and tried to grasp all she could with the other hand and is this week getting what Americans and Englishmen have been saying she would get . . . . a kick in her front.

—The great question mark is still present, only bigger.

—The question has been all along, which is the most dangerous to democracies Communism or Nazism? Facism and Nazism came into being because Communism was eating its way into Italy and Germany.

—England and America, the champions of freedom and independence, have at last learned how to deal with both Communism and Nazism, and neither should be allowed to thrive in any country of democracy.

—Now that Germany has used the Russian Communism to strangle all Europe, she turns on her true foe for bread and oil.

—To keep our thinking straight, let's recall that Hitler first fought the Russian ideas, then later threw in with them to get control of Germany, then again turned on them and again faced about in 1939 and made a deal that enabled Germany to ravage a half dozen small countries.

—But this 1941, Germany has gotten all she can from Russia by intrigue, and the thing now to do is to go take all she wants and use the loot to conquer the rest of the world.

—No one can get much consolation out of the Germany-Russian War. For the general comment from those who know, is that Russia would have been less use to Germany as a half-hearted collaborator and no open war, than she will be a conquered nation.

—Our guess is that Germany will, within about 30 or 60 days, have Russia where she now has France. Occupied and unoccupied Russia. Which means, that Germany's power will reach from the North Sea and Atlantic Ocean clear across European and Asiatic Russia to the Pacific Ocean. This guess will be safe unless the much flouted strength of the great Russian Army and equipment proves better than most of us think.

—The Russian army today is the only remaining major power, landjoining Germany that stands between conquest of all Europe and Asia. So with Russia under Hitler's heels, he will have nothing to do but bide his time while the resources of foods, iron and oils and millions of men and women continue his machine building to where he can tell all the Americas and England to do this or do that, or else.

—The chief difference between Nazism and Communism, is that Nazism openly commands and carries out her threats while Communism works under cunning silent cover to undermine opposition like a deadly disease. America and England have solved the diagnosis and can handle the worm work of the Communists but first all English-speaking people must make themselves safe from the Nazis which is more objectionable than the old time king despot.

—So OUR conclusion is that if Germany conquers Russia, the danger to the United States will be increased three-fold. Germany is striking east to join forces with Japan. Japan and Russia are deadly enemies, and we guess Japan will, if Germany stabs Russia fatally, be right on Russia's back like Italy went in on France, after the kill was made.

—The ideals of Russian Communism infect all nations like a deadly disease, and while Americans can't feel too sympathetic with Russia, because she has acted contrary to her own interests in clogging in with Germany, most Americans would rather see Russia deal the death blow to Germany than see Hitler thrash down the bewhiskered Reds.

thvsl oaabee now that thewaris

—Our guess is that Hitler has two things in view: Whip the food and oil out of Russia, and pave a road around the Black Sea to attack England from the east through Iran, Iraq, Palestine and Syria to control the Suez, the Persian Gulf, Indian Ocean, and the Red Sea.

—No thinking American has any grounds, yet, to say Hitler will ever win. To win, his nation must clear all oceans of English and American ships, and on top of that, invade and conquer England, Australia, and North and South America. He simply can't do it.

—Hitler MUST be stopped, short of nothing. The quicker he is halted good and completely forever, the cheaper it will be for Americans. So every gun and tank, every soldier and shell Hitler spends on Russia will be shortening his race. But with Russia in his hands, Hitler's terrorism will last perhaps two years longer than was contemplated. Now it will take America one year longer to end the conflict after going "all out" in full force.

—Most Americans hope Russia can prove her military might and let Hitler have the knockout blow and end it this year.

TO YOU WHO SWEAR BY OIL-PLATING....

Still less engine wear—still more oil Economy—from this proved New oil that still brings OIL-PLATING

Single 5-quart fill defies Death Valley for 13,398 miles...Certified

IMPARTIAL

Latest available products of 5 leading competitors bought retail by Referee.

Identical new cars broken-in alike, after engines had been taken apart for Referee to check uniformity.

The celebrated Conoco Germ Processed oil patent first made it possible for Conoco to bring your engine OIL-PLATING—lasting lubricant with magnet-like attraction for inner engine surfaces. Thus OIL-PLATING can't all quickly drain down—fry up—"rub out" fast. And this same Germ Processed oil patent still assures an OIL-PLATED engine, after you change to the sensational new oil by Conoco...

Its name is CONOCO Nth MOTOR OIL—Brings new Economy aid, besides OIL-PLATING

This popular-priced new Conoco Nth oil that OIL-PLATES, can protect itself against today's worst cause of rapid consumption.

How?...Just consider one truth about latest oil refining methods. Ridding oil of bad things may sacrifice some of Nature's best life-givers! The same happens, you know, in processing some foods. But today that loss is often made up by vitamin *synthetics*... man-made. And today the vigor otherwise sacrificed in any proper refining is more than made up by patented Conoco *Thialkene inhibitor*... man-made... in Conoco Nth oil.

Lasted 74% to 161% longer than 5 other big-name oils in fierce fair test

Across the Death Valley desert Conoco Nth wrote E-C-O-N-O-M-Y. Locked in the engines of 6 new everyday cars—all alike—were 6 prominent oils, including Conoco Nth. One 5-quart fill per car. Never another drop. No mercy. 57 miles an hour under impartial observation—under sun that'd singe you—till each fill gave out and the engine was junk.

Conoco Nth outlasted the next-best oil by 5,683 miles; outlasted the worst by 8,268 miles; outlasted the average of all 5 others by 7,057 miles. All certified. But you don't put your car through torture-tests. For authorities warn you to change oil at regular intervals. No quarreling with that! Now, however, as you change to Conoco Nth... the greater new oil that OIL-PLATES... set your speedometer-trip at 000. Keep track—and certify Conoco Nth economy for yourself. Continental Oil Co.—*Pioneers in Bettering America's oil with Synthetics*

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

City Ordinance Tax Levy

An Ordinance entitled an Ordinance Levying Taxes for the use and Support of the Municipal Government of the City of Hamlin, Texas, and providing interest and sinking Funds for the fiscal year beginning May 1, 1941, and ending April 30, 1942, and appropriating each levy for specific purpose, and providing for a discount on current ad valorem taxes if such taxes are paid within certain specified times.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HAMLIN, TEXAS.

SECTION 1. That there is hereby levied, and there shall be collected, for the use and support of the Municipal Government of the City of Hamlin, Texas, and to provide interest and Sinking Funds, for the fiscal year beginning May 1, 1941, and ending April 30, 1942, upon all property, real, personal and mixed, within the corporate limits of said City, subject to taxation, for the year 1941, a Tax of One Dollar and Fifty Cents ($1.50) on each one hundred dollars ($100.00) valuation of property, said tax being so levied and appropriated to the specific purposes herein set forth:

(1) For the maintenance and support of the General Government (General Fund), Seventy-Five Cents ($0.75) on each one hundred dollars ($100.00) valuation of property, and

(2) For the Interest and Sinking Funds, Seventy-Five Cents ($0.75) on each one hundred dollars valuation of property, to be apportioned as follows:

(a) For Waterworks Bonds, Fifteen Cents ($0.15)

(b) For Sewer Bonds, Forty Cents ($0.40).

(c) For Refunding Bonds, Fifteen Cents ($0.15).

(d) For City Hall and Fire Station Bonds, Five Cents ($0.05).

SECTION 2. All taxpayers shall be allowed discounts for the payment of taxes due the City of Hamlin, Texas, said discounts to be allowed under the following conditions:

(1) 3% Discount on ad valorem taxes due the City, if such taxes are paid within the month of October of the year for which such taxes are levied, or 90 days before the date when they would otherwise become delinquent.

(2) 2% Discount on ad valorem taxes due the City, if such taxes are paid within the month of November of the year for which taxes are levied, or 60 days before the date when they would otherwise become delinquent.

(3) 1% Discount on ad valorem taxes due the City, if such taxes are paid within the month of December of the year for which taxes are levied, or 30 days before the date when they would otherwise become delinquent.

SECTION 3. There is hereby levied and shall be collected from every person, firm, association, or corporation pursuing any occupation taxed by the General Laws of the State of Texas, an annual Occupation Tax, equal in each instance to one-half of the State Occupation Tax, which said taxes shall be paid annually in advance, except where otherwise provided by the State Laws, in which event the same shall be paid as is provided by the State Law.

SECTION 4. All receipts for the City not specifically apportioned by this ordinance, are hereby made payable to the General Fund of the City.

SECTION 5. All moneys collected under this ordinance for the specific items therein named, be and the same are hereby appropriated and set apart for the specific purpose indicated in each item, and that the Assessor and Collector of Taxes, and the City Treasurer and City Secretary shall keep these accounts so as to readily and distinctly show the amount collected, the amounts expended, and the amount on hand at any time, belonging to such funds, it is hereby made the duty of the Tax Assessor and Collector of Taxes, and every person collecting money for the City of Hamlin, Texas, to deliver to the City Treasurer or City Secretary at the time of depositing any moneys, a statement showing to what fund such deposit should be made and from what source received.

SECTION 6. That this ordinance shall take effect, and be in force, from and after its passage, and it is so ordained.

PASSED AND APPROVED this the 17th day of June, 1941.

City Ordinance Appropriation

An Ordinance entitled an Ordinance Making Appropriations for Support of the Government (less the Waterworks Department) of the City of Hamlin, Texas, for the fiscal year beginning May 1, 1941, and ending April 30, 1942, and declaring an emergency.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HAMLIN, TEXAS.

SECTION 1. That, for the purpose of providing a BUDGET for the fiscal year beginning May 1, 1941, and ending April 30, 1942, the sums set forth below be and the same are hereby appropriated for the maintenance, operation, and improvements of the Government (less the Waterworks Department) of the City of Hamlin, Texas, and the same shall be strictly applied for the several purposes and in the respective amounts hereinafter specified.

SECTION 2. That the amounts appropriated, and the purposes for which the sums named be spent, shall be as follows:

General Fund		
Sanitary and Sewer Dept.	$1,430.00	
Street Dept.	3,790.00	
Police Dept.	3,430.00	
Fire Dept.	968.00	
Administrative Dept.	4,350.00	
Fire Truck Warrant	860.00	
City Hall Interest Due May 1, 1941	240.00	$15,068.00
Debt Service Funds		
Sewer Fund:		
Bonds Due	$2,000.00	
Interest Due	1,560.00	$3,560.00
Water Fund:		
Bond Due	$1,000.00	
Interest Due	840.00	$ 1,840.00
Refunding Fund:		
Bond Due	$ 500.00	
Interest Due	1,500.00	$ 2,000.00
City Hall and Fire Station Fund:		
Interest Due	$ 480.00	$ 480.00
City Hall and Fire Station Construction Account		
Estimated cost of City Hall and Fire Station	$10,976.25	$10,976.25
Total Appropriated		**$33,924.25**

SECTION 3. That, excepting the General Fund and the Debt Service Funds, the budget officer may transfer a sum from one item to another item within a fund; That within the General Fund, the budget officer may transfer a sum from one item to another item in the same department; and that any transfer of appropriation from one fund to another, or from one General Fund Department to another Department, or from one item to another within the Debt Service Funds, may be made only on the authority of an ordinance passed by the City Council on the proposal of the Budget Officer.

STCTION 4. That the necessity for the continued maintenance operation and improvement of the Government (less the Waterworks System) of the City of Hamlin, Texas, creates an emergency which requires that the Budget shall become effective at once, and that this ordinance therefore, shall take effect from and after its passage.

PASSED AND APPROVED this the 17th day of June, 1941.

When a Child Needs a Laxative!

Your child should like this tasty liquid laxative and you should like the *gentle* way it usually wakes up a youngster's lazy intestines when given by the simple directions.

SYRUP OF BLACK-DRAUGHT contains the same principal ingredient which has enabled its older brother BLACK-DRAUGHT to give so many users such satisfying relief for so many years!

Perhaps that's why it usually gives a child such refreshing relief when the familiar symptoms indicate a laxative is needed.

SYRUP OF BLACK-DRAUGHT comes in 2 sizes. The introductory size is 25c; the economy size is 50c.

Synthetic Process May Have Place In Rubber Program

Local Dealer Traces Its Development Indicates New Expansion Plans

As an important contribution toward fortifying the nation's needs, The Goodyear Tire & Rubber Company has made increases in its facilities for manufacturing its synthetic rubber, Chemigum, according to Bill Thomas, local Goodyear dealer.

For three and one-half years the company developed and produced its own type of chemical rubber in its laboratories, and production began last fall.

Chemigum resulted from the exploration of more than 300 different compounds, involving thousands of tests.

Important among its advantages are its increased tensile strength, resistance to ageing, abrasion and oils, and utilization of the same production methods and equipment currently in use with natural rubber.

In its first uses, Chemigum demonstrated definite superiority over natural rubber in the manufacture of Goodyear gasoline hose, airplane brakes, gaskets, sealing rings and other products. Then began its satisfying performance in the making of synthetic rubber tires.

Clear Enough

The daughter of the house arrived home one night looking very sad.

"What's the matter?" asked her mother.

"Oh, I thought John loved me," the girl explained, "but now I know he's not going to propose—at least not for some time."

"How do you know?" asked her mother.

"Because he sent me a big box of stationery with my initials on it—and there's enough to last for six months."—Tit-Bits.

It is usually not so much the greatness of our trouble as the littleness of our spirit which makes us complain.—Jeremy Taylor.

I GIVE YOU TEXAS

(By BOYCE HOUSE)

"This might happen to you — subscribe" is the moral of the following fanciful sketch, author unknown.

A man was too stingy to subscribe for his hometown paper sent his little boy to borrow a copy from a neighbor. In his haste the boy ran over a $4 stand of bees and in ten minutes looked like a warty squash.

His father ran to his assistance and, failing to notice the barbed wire fence, ran into that, ruining a $5 pair of trousers.

The old cow took advantage of the gap in the fence, got into the corn field and killed herself eating green corn.

Hearing the racket his wife ran out, upset a four-gallon churn of cream into a basket of little chickens, drowning the entire batch. In her haste she dropped a $35 set of false teeth.

The baby, having been left alone, crawled through the cream into the parlor, ruining a brand new $25.00 carpet.

During the excitement the oldest daughter ran away with the hired man, the dog broke up 11 setting hens and the calves got out and chewed the tails off four fine shirts on the clothes line.

Moral: Don't borrow your neighbor's paper. It's too risky.

When you think of Llano, you think of granite. Around the town are 12 plants and quarries, employing 200 men or more. Some time ago, your columnist was shown over the plant of the Premier Granite Quarries by C. R. Stolz, the proprietor. The huge blocks of granite are cut with saws, which can handls a chunk 16 feet long, eight feet wide and seven feet high. The actual cutting is done with shot, the saws forcing the shot down. The shot are of chilled steel and look like the kind used in shotgun shells. As many as 15 blades can be used at once but the fewer the blades, the faster the cutting. For instance, with 10 blades, the granite is cut at the rate of six inches an hour.

At the time of the visit, this plant was employing 60 men. The company's three quarries have a virtually unlimited supply of granite. The colors are varied: pink, light gray and blue (or dark gray). Among the jobs of which Stolz is proud are the granite for the beautiful Austin Tribune building, the semi-circular rostrum in El Paso (presenting a problem because of the unusual shape) and the Washington municipal center group, for which 40 cars of granite were shipped, one block weighing 26 tons. This was so big that it extended beyond a railroad flat car by a foot and a half on each side.

The plant also does sculpturing from models, which looked like a difficult task, to me, but I was told that it wasn't. Impressive work along this line includes the New London School Memorial and the Fannin Memorial at Goliad.

More Mexicon proverbs:

To do good to scoundrels is to throw water into the sea.

Neither great poverty nor great riches will hear reason.

The fewer words, the fewer law suits.

An old ox draws a straight furrow.

Wine has two defects: if you add water to it, you ruin it; if you do not add water, it ruins you.

He who fears death enjoys not life.

With the end of the United States Senate race at hand as these lines are written, the latest Belden poll shows Congressman Lyndon Johnson is first. More significant that the mere figures is that Johnson started out seven weeks ago with only 5 per cent of the vote and he has gone forward by leaps and bounds whereas all the others haxe lost ground. Apparently thousands who have heretofore voted for Governor O'Daniel think he should stay in Austin so the professional politicians will not regain control of the State government.

Logical Answer

Sitting in a concert hall waiting for the concert to begin, a man, seeing a little boy in front of him looking at his watch, bent forward and asked: "Does it tell the time?"

"No," replied the little boy, "you have to look at it."—Royail Arcanum Bulletin.

Double Heart Ranch Having All-Kid Rodeo

Saturday afternoon, the owners of the Double Heart Ranch, Mr. and Mrs. Ollie S. Cox, were in Hamlin placing window cards and other advertising for their big annual rodeo at their ranch, 10 miles south of Sweetwater, which will be pulled off on July 3 and 4th.

The Double Heart Ranch has 11 sections and they specialize in White Brahma cattle for show purposes.

ALL OLD TIMERS FREE

Double Heart Cox says a rodeo pulled off right on the ranch with all the old timers present is a real thing. He invites all old cowhands to be his guests and no charge for admission. Also all soldiers and Boy Scouts are to get in for 20 cents while others will be charged 50 cents plus the tax.

Rancher Cox is not competing with Stamford, only just offering another place to spend July 3 and 4th. Not new, for they have been holding these rodeos over there for several years. They call their place the "Playground of West Texas."

Here is the Double Heart program:

1st—All contestants 18 years old and under are eligible provided release blank is signed by parents.

COWGIRL SPONSOR CONTEST

There will be no entrance fee in this event, unless Cowgirls want to have a JACK POT calf roping contest. Sponsors Contest will be a time event only. There will be two shows daily. First show will be the Flag Race. Girls will be timed from starting line to flag stand where they exchange flags and return.

Second show will be the figure 8 around three barrels. Barrels to be 50 feet apart. If contestant knocks over a barrel she will be fined 10 seconds.

Third show will be the balloon race, about the same as the barrel race.

Fourth and last show, will be the Relay Race where cowygirl rides completely around the arena, takes saddle off, puts it on the ground and throws up her hands, puts saddle back on and rides around the arena again to the starting line. No freak chinches or blankets will be allowed. Cowgirl making the lowest average time will receive: 1st a $100.00 saddle; 2nd, $30.00 Shop Made Boots; and 3rd, a Stetson Hat.

COWBOYS CALF ROPING CONTEST

Entrance fees satisfactory to the ropers will be charged (not over $5 per day) and will be split 40-30-20-10 per cent.

Calves will be Brahmas and will weigh around 150 pounds each. There will also be team tying and cow milking if enough entries are received.

Cowboys making the lowest average time on full show will win: 1st, $100 saddle; 2nd, $30 Shop Made Boots; and 3rd, Stetson hat.

COWBOYS BRONC AND STEER RIDING CONTEST

Entrance fees not over $3.00 per day will be charged in Bronc and Steer Riding, and split 40-30-20-10 per cent.

Small bucking horses will be used and either Brahma heifers or Mexican dogging steers will be used in steer riding.

Cowboy making highest average on riding both steers and horses will receive: 1st, $100 saddle; 2nd, $30 Shop Boots; 3rd, $10 Stetson hat.

HORSE RACES

Any horse entered in the roping event and ridden by any contestant 18 years or under will be eligible. $5 entrance fee will be charged with $25 added by the Double Heart Ranch to be split 50-30-20 per cent among the first three winners. One quarter of a mile will be the distance.

Same entrance fee will apply to cutting horse contest as to horse races, to be split 50-30-20 per cent. Contestant must be 18 years old or under.

There will be a Jack Pot roping for (Ranch Hand) cowboys only, that do not follow rodeos. Entrance fee $5.00—Split 40-30-20-10 per cent.

And mount money riding on Bulls and Broncs open to anyone 21 years old or over. $3 per mount.

Each contestant will be required to ride in all parades and grand entry and will be required to write, wire or be present by midnight, on July 2nd. Girl sponsors may represent their home town or their ranch, as they desire.

The Difference

"My husband is the efficiency expert in a large office."

"What does an efficiency expert do?"

"Well, if we women did it they would call it nagging."—Wij.

Share

"My boy, you'll never be able to suport my daughter. Why, I can hardly manage it myself."

"Tell you what, sir—let's go fifty-fifty."Tit-Bits.

Plenty at Home

RAILWAY LABOR UNION DEMANDS WOULD COST 900 Million Dollars A YEAR

THE labor unions have made their demands upon the railways of the United States—and through the railways upon the PUBLIC. These demands are vastly larger in proportion than any they have ever made. The economical and efficient operation of the railways is vital to the nation's defense effort. Therefore, the Western Railways present to the public the following facts:

The labor unions representing engineers, firemen, conductors, brakemen and switchmen are demanding a 30 per cent increase in wages, amounting to 190 million dollars a year—although their present rates of pay are the highest in history.

Other unions representing a greater number of railway employees are demanding wage increases ranging as high as 95 per cent—averaging 47 per cent—and amounting to 580 million dollars a year—although their present rates of pay also are the highest in history.

Thus the wage increases being demanded by the labor unions amount to 770 million dollars a year, an average increase in excess of 41 per cent.

In addition, certain of these labor unions have demanded advances in their pay not included in the above figures, and more rules for the creation of unnecessary jobs.

The situation, then, is this: The total cost of complying with all the demands made would be approximately 900 million dollars a year!

The average weekly earnings of railway employees are now 15 per cent higher than in the peak year 1929, while the cost of living is 12 per cent less.

The demands of the railway labor unions are being made when the entire nation has just been asked to make a supreme effort for National Defense.

The railways cannot meet these demands without a great increase in the cost of transportation. They exceed by more than 700 million dollars the income that the railways had left after paying their annual expenses, taxes and charges in 1940.

The railways have a vitally important job before them. They need all their resources to continue adequately to serve you and contribute effectively toward the National Defense Program.

Union Station, Chicago, Ill.

POT SHOTS FROM McCAULLEY

BY GEO. DARDEN

Mrs. Sim Reeves and three children of San Antonio are spending a few weeks with her parents, Mr. and Mrs. S. E. Miers. Also visiting Mr. and Mrs. Miers are Mrs. James Wall and two daughters, of Manahans, Texas. She too, is a daughter of Mr. and Mrs. Miers.

Mr. and Mrs. Vernon Darden and daughter of Longview were visitors in the home of the George Dardens last Monday and Tuesday. Vernon is cashier for Ben E. Keith Co. at Longview.

C. E. Dick, Jr., has returned from Crosbyton where he has been for a few weeks visiting a sister, Mrs. Frank Moore and family.

James Parker and Billie Pickron visited their parents over the week end. Both boys are in the air corps and stationed at San Antonio.

Carroll Lee, Roy Hennington, H. P. Powers, C. E. Dick Jr. and Geo. Darden are measuring land for the government and what we mean it's plenty hot.

Mr. and Mrs. Ernest Gregg of Lamesa were visiting relatives in McCaulley and Neinda over the week end.

We understand that salt water has been encountered in the well on Mrs. W. M. Fancher's farm. However a nice showing of oil too, and it is hoped that the water can be shut off.

Mr. and Mrs. Melvin Henderson of Stamford were visiting relatives and friends last Monday in McCaulley.

Crops are fine in this vicinity and due to a shortage of farm labor the weeds are getting a good start.

Louis Rector, C. P. Yates, Leldon Clifton, R. L. Miers and others that we have failed to get the names of, are on a fishing trip near Lueders this week.

J. E. Darden, Commissioner of Kent County, and son came through McCaulley last week on their way to Buchanan Dam, near Austin and as this scribe was invited to go along we couldn't resist the temptation, and oh boy, the fish we did eat. And too, we brought home a small one weighing eighteen pounds.

o-o-o-o

Well, folks, the election will soon be history. On Saturday we go to the polls to cast our votes for a Senator to fill the unexpired term of the late Morris Sheppard. Most of us have our Senator picked out and on the other hand there are others who are still undecided, in fact there is some mighty good timber out for the Senate and we all hope the best qualified man will win. That is, we should feel that way. We, like a lot of folks, are hoping to the very last that at least two of the top men, or near the top, will pull out of the race and give the Governor a race for the money. Four men out of the twenty-five are the candidates who will get most of the votes. It's going to be hard to tell who will be the top man until the votes are counted. We listen to all of the candidates on the radio, and of course each claims the race is between him and the Governor.

The Governor seems to be afraid that Gerald Mann is about to run under him, and too, the Governor takes a lot of cracks at Lyndon Johnson, so after all, the Governor of Texas (from Kansas) isn't so sure of a landslide this time. We won't be surprised at either of the four top men nosing out in front. We would like to vote for Martin Dies, if ever there was a man who needs a promotion it's Mr. Dies, and we are not going to count him out of the race yet. We rather like Lyndon Johnson and believe he would make a good Senator, but can he win? We like Gerald Mann, and believe he too would make a good Senator, but we need him as Attorney General. By the end of this week the people of Texas should have some idea as to who can win over the man from Kansas and that man will be Martin Dies, Gerald Mann, or Lyndon Johnson. Let's keep the Governor here in Texas, as governor, that is until he finishes his term and maybe he will get all his money for the old people that he has been talking about getting—for the past several years.

DOVIE NEWS

By Opal Parker

Well, we're back on the list after a few weeks of absence. Lots has happened since our last writing. --

We have our electric lights on in the church and maybe the rains have ceased so every one can attend. We hope to see a large attendance every Sunday.

Alvis Cooley is home for the summer from McMurry. We are glad to have Alvis back in the Sunday School and League.

Virginia Lee Cooley and Vada Taylor attended summer assembly.

A business meeting was held Friday night at the church. And new League officers were elected. We hope to build up the League as it once was.

Rev. Byrd filled his regular appointment Sunday morning. Rev. Massey filled the pulpit Sunday nite.

Miss Floy Lee Parker spent the week end with Miss Opal Parker who is making her home with her grandparents, Mr. and Mrs. W. W. Ivey of the Dovie community.

Mr. R. H. Cooley's youngest brother who is in training at Fort Sam Houston visited them last week. He is in the 38th Division.

Mrs. C. C. Renfro visited Mr. and Mrs. Ralph Riddle Sunday afternoon.

Mr. and Mrs. Claude Bessire and children had dinner with Mr. and Mrs. L. B. Holden Sunday.

Mrs. Ira Green visited Mrs. C. C. Renfro Monday afternoon.

We are very sorry to report Mr. W. W. Ivey on the sick list. Here is hoping him a speedy recovery.

The privilege of driving was taken away from 190 persons in Texas from April 2 to June 5, as reported by Col. Homer Garrison, Jr., State Police Director.

Building Defense Ships In Texas Ship Yards

National defense contracts let in Texas up to April 15 amounted to $495,241,752.81, and Texans have been quick to make themselves available for employment in occupations essential to national defense, James R. D. Eddy, State Director of the National Defense Training Program said today.

Shipyard contracts in Texas total $181,142,452.00. These contracts cover twelve destroyers to be built at Orange, twelve cargo vessels and four steel mine sweepers to be built at Beaumont, four steel submarine chasers and thirty-seven steel cargo boats to be built at Houston, ten wood mine sweepers to be built at Orange, and an unspecified number of wood submarine chasers at Rockport and Galveston.

With Texas forging to the front as a center for ship construction, labor estimates compiled by the Texas State Employment Service indicate that the shipyards in Texas will absorb 12,000 workers within the next twelve months.

"If the flow of national defense materials is continued unhampered it is essential that trained men be available for jobs when they are needed," Eddy declared.

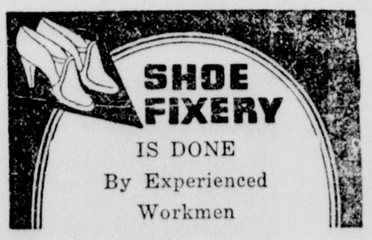

Let us be true this is the highest maxim of art and of life, the secret of eloquence and virtue, and of all moral authority.—Amiel's Journal.

Miss Glenda Graham from Wichita Falls has been visiting in the home of her grandparents, Mr. and Mrs. W. S. Graham. She returned home via Truscott, where she visited an aunt, Mrs. C. M. Abbott.

A New World

"Daddy, can you help me with my geography lesson?"

"No, boy. They've changed the names of all the places I knew."
